Step 1 Decide on What You Want to Organize/Store

Mark the general items below that you are interested in storing and organizing. The idea is not to account for the last can of paint and shovel, but to give a general "feeling" of the type and possibly the size of your different storage needs

Items to be organized

- Small Power Tools, ie Drills, Skill Saw, Sander, Jig Saw, Router
- Cleaning Supplies, small containers, Cleaning Cloths, Sponges, etc...
- Extension Cords, Belts, Cables, Tie Downs, Garden Hoses

Step 2 Sketch the Garage Space as a Top View

Measure your walls and use the grid below to represent your OVERALL space. The view is looking down (ie. from the garage ceiling). Summarize your measurements in the table beneath the grid. You will use this summary information in the next step.

1 Square = 1 Foot.

SUMMARY

Wall #1	_____ ft	Wall #2	_____ ft	Wall #3	_____ ft	Wall #4	_____ ft
Height	_____ ft	Height	_____ ft	Height	_____ ft	Height	_____ ft

Step 3 Sketch Your Wall Space

From the summary wall dimensions in Step 1, sketch your walls from the view of facing them (ie. elevations). This would also be a good opportunity to roughly outline the area where you would like to store and organize the items checked in in STEP 1.

0' 5' 10' 15' 20' 0' 5' 10' 15' 20'
